

Hannah Frye, M.A., is a Child Development Specialist at the University of Oklahoma Health Sciences Center, Center on Child Abuse and Neglect. Ms. Frye received her Master of Arts in Counseling Psychology from the University of Central Oklahoma in 2019. She is currently under supervision to become a Licensed Professional Counselor. She provides clinical services for children and families through the Child Trauma Services Program and the Family TREE. She has received training in Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), an evidence-based treatment for child and adolescents impacted by trauma and their caregivers. She is also working towards certification in Parent-Child Interaction Therapy (PCIT), an evidence-based treatment for young children with disruptive behaviors.
